

Evaporator Guard S3

Maximum protection during loading and unloading

Evaporators are crucial when it comes to safeguarding your cargo. During loading and unloading, however, they are susceptible to damage from forklift trucks, pallets, crates, bins, boxes and other cargo.

Key Features

- Full protection from exterior damage
- Exceptional light weight durable aluminium painted white
- Available for all multi temperature truck and trailer models
- User-friendly installation
- Quick access for evaporator maintenance
- Four mounting plates for secure fastening
- Installation components included in the kit
