

UNIT MANAGEMENT**Snow Kit for SLX **

Thermo King snow covers are designed to protect your unit against extreme climate conditions. The snow cover, specifically designed for SLX, prevents the build-up of snow and ice on the unit’s blowers and pulleys which could otherwise lead to downtime and further maintenance costs, resulting in longer running times for your unit.

Key Features

- Protect refrigeration unit against snow and ice
- Operates on continuous and cycle sentry
- Reduce customer downtimes and costs
- Easy installation
- Allow quick access for maintenance
